Subject Index

ABRs
Auditory thresholds; Deafness mice; Heterozygotes (Kirsch, J.P. (67) 51)

Acetylcholine
Hair cell; Potassium conductance; Intracellular Ca^{2+} (Doi, T. (67) 179)

Aging
Vestibular; Blood flow; Microcirculation; Stereology; Rat (Lyon, M.J. (67) 157)

Amino acids
Copper; Cochlea; Cochlear nucleus; Inferior colliculus; Glutamine (Farms, W.B. (67) 45)

Aminoglycosides
Cisplatin; Ethacrynate; Mercuric chloride; Inositol phosphates; Cochlear muscarinic receptors (Bartolami, S. (67) 203)

Amphibians
Inner ear; Vestibular system; Scanning electron microscopy; Otóconia; Calcite (Pote, K.G. (67) 189)

Astrocytes
Microcysts; S-100; GFAP; Rip; Gerbil; Cochlear nucleus; Excitotoxicity (Czibulka, A. (67) 1)

Audition
Directional hearing; Magnetoencephalography; Evoked responses; Interaural time difference; Auditory space (Sams, M. (67) 89)

Auditory cortex
Electrical stimulation; Cochlea; Evoked responses (Popelář, J. (67) 69)

Magnetoencephalography; Evoked responses; Interaural time difference; Auditory space (McEvoy, L. (67) 98)

Auditory prosthesis
Electrical stimulation; Human; Psychophysics; Detection thresholds; Phase duration (Moon, A.K. (67) 166)

Auditory space
Directional hearing; Magnetoencephalography; Evoked responses; Audition; Interaural time difference (Sams, M. (67) 89)

Magnetoencephalography; Evoked responses; Auditory cortex; Interaural time difference (McEvoy, L. (67) 98)

Auditory thresholds
Deafness mice; ABRs; Heterozygotes (Kirsch, J.P. (67) 51)

Axon terminal
Inner ear; Cochlea; Ototoxicity; Gerbil (Takeuchi, S. (67) 13)

Bat
Frequency modulation thresholds; Psychophysics; Fluttering target discrimination (Bartsch, E. (67) 128)

Binaural localization
Spectral cues; Spatial referents; Monaural localization; Head-related-transfer-functions (Butler, R.A. (67) 220)

Blood flow
Vestibular; Aging; Microcirculation; Stereology; Rat (Lyon, M.J. (67) 157)

Calcite
Inner ear; Vestibular system; Scanning electron microscopy; Otoconia; Amphibians (Pote, K.G. (67) 189)

CAP
Salicylate; Ototoxicity; Cochlear microphonic; Olivocochlear action; Hearing loss (Fitzgerald, J.J. (67) 147)

Cisplatin
Aminoglycosides; Ethacrynate; Mercuric chloride; Inositol phosphates; Cochlear muscarinic receptors (Bartolami, S. (67) 203)

Cochlea
Inner ear; Ototoxicity; Axon terminal; Gerbil (Takeuchi, S. (67) 13)

GABA; Distortion tones; Efferents (Kirk, D.L. (67) 20)

Copper; Cochlear nucleus; Inferior colliculus; Glutamine; Amino acids (Farms, W.B. (67) 45)

Electrical stimulation; Auditory cortex; Evoked responses (Popelář, J. (67) 69)

Glycoconjugates; Silver methenamine; Periodic acid-Schiff staining (Kawamata, S. (67) 75)

Place-frequency map; Marsupial; HRP (Müller, M. (67) 198)

Cochlear hair cell
3-D optical microscopy; Image processing; F-actin; Stereocilia; Loud noise (Avinash, G.B. (67) 139)

Cochlear microphonic
Salicylate; Ototoxicity; CAP; Olivocochlear action; Hearing loss (Fitzgerald, J.J. (67) 147)

Cochlear muscarinic receptors
Aminoglycosides; Cisplatin; Ethacrynate; Mercuric chloride; Inositol phosphates (Bartolami, S. (67) 203)

Cochlear nucleus
Microcysts; Astrocytes; S-100; GFAP; Rip; Gerbil; Excitotoxicity (Czibulka, A. (67) 1)

Copper; Cochlea; Inferior colliculus; Glutamine; Amino acids (Farms, W.B. (67) 45)

Compound action potential
Electrophonic; Electrical stimulation; Hair cell; Transduction (McAnally, K.I. (67) 55)

Copper
Cochlea; Cochlear nucleus; Inferior colliculus; Glutamine; Amino acids (Farms, W.B. (67) 45)

Deafness mice
Auditory thresholds; ABRs; Heterozygotes (Kirsch, J.P. (67) 51)

Detection thresholds
Auditory prosthesis; Electrical stimulation; Human; Psychophysics; Phase duration (Moon, A.K. (67) 166)

Directional hearing
Magnetoencephalography; Evoked responses; Audition; Interaural time difference; Auditory space (Sams, M. (67) 89)

Distortion tones
GABA; Cochlea; Efferents (Kirk, D.L. (67) 20)

3-D optical microscopy
Image processing; F-actin; Stereocilia; Cochlear hair cell; Loud noise (Avinash, G.B. (67) 139)

Dorsal cochlear nucleus
Masking; Forward masking; Precedence effect; Echo suppression (Kaltenbach, J.A. (67) 35)

Echo suppression
Masking; Forward masking; Dorsal cochlear nucleus; Precedence effect (Kaltenbach, J.A. (67) 35)

Efferents
GABA; Cochlea; Distortion tones (Kirk, D.L. (67) 20)

Electrical stimulation
Electrophonic; Hair cell; Compound action potential; Transduction (McAnally, K.I. (67) 55)

Cochlea; Auditory cortex; Evoked responses (Popelář, J. (67) 69)

Auditory prosthesis; Human; Psychophysics; Detection thresholds; Phase duration (Moon, A.K. (67) 166)

Electrophonic
Electrical stimulation; Hair cell; Compound action potential; Transduction (McAnally, K.I. (67) 55)

Ethacrynate
Aminoglycosides; Cisplatin; Mercuric chloride; Inositol phosphates; Cochlear muscarinic receptors (Bartolami, S. (67) 203)

Evoked responses
Electrical stimulation; Cochlea; Auditory cortex (Popelář, J. (67) 69)

Directional hearing; Magnetoencephalography; Audition; Interaural time difference; Auditory space (Sams, M. (67) 89)

Magnetoencephalography; Auditory cortex; Interaural time difference; Auditory space (McEvoy, L. (67) 98)

Excitotoxicity
Microcysts; Astrocytes; S-100; GFAP; Rip; Gerbil; Cochlear nucleus (Czibulka, A. (67) 1)

F-actin
3-D optical microscopy; Image processing; Stereocilia; Cochlear hair cell; Loud noise (Avinash, G.B. (67) 139)

Fluttering target discrimination
Frequency modulation thresholds; Bat; Psychophysics (Bartsch, E. (67) 128)

Forward masking
Masking; Dorsal cochlear nucleus; Precedence effect; Echo suppression (Kaltenbach, J.A. (67) 35)

Frequency modulation thresholds
Bat; Psychophysics; Fluttering target discrimination (Bartsch, E. (67) 128)

GABA
Cochlea; Distortion tones; Efferents (Kirk, D.L. (67) 20)

Gerbil
Microcysts; Astrocytes; S-100; GFAP; Rip; Cochlear nucleus; Excitotoxicity (Czibulka, A. (67) 1)

Inner ear; Cochlea; Ototoxicity; Axon terminal (Takeuchi, S. (67) 13)

GFAP
Microcysts; Astrocytes; S-100; Rip; Gerbil; Cochlear nucleus; Excitotoxicity (Czibulka, A. (67) 1)

Glutamine
Copper; Cochlea; Cochlear nucleus; Inferior colliculus; Amino acids (Farms, W.B. (67) 45)

Glycoconjugates
Cochlea; Silver methenamine; Periodic acid-Schiff staining (Kawamata, S. (67) 75)

Otolithic organs; Inner ear; Otoconia; Silver methenamine; Periodic acid-Schiff staining (Igarashi, Y. (67) 83)

Guinea-pig
Isolated type I vestibular hair cells; Reversible motile responses; Membrane depolarization (Griguer, C. (67) 110)

Hair cell
Electrophonic; Electrical stimulation; Compound action potential; Transduction (McAnally, K.I. (67) 55)

Acetylcholine; Potassium conductance; Intracellular Ca^{2+} (Doi, T. (67) 179)

Head-related-transfer-functions
Spectral cues; Spatial referents; Monaural localization; Binaural localization (Butler, R.A. (67) 220)

Hearing loss
Salicylate; Ototoxicity; Cochlear microphonic; CAP; Olivocochlear action (Fitzgerald, J.J. (67) 147)

Heterozygotes
Auditory thresholds; Deafness mice; ABRs (Kirsch, J.P. (67) 51)

HRP
Cochlea; Place-frequency map; Marsupial (Müller, M. (67) 198)

Human
Auditory prosthesis; Electrical stimulation; Psychophysics; Detection thresholds; Phase duration (Moon, A.K. (67) 166)

Spiral ganglion; Morphometry; Neonate (Chiong, C.M. (67) 211)

Image processing
3-D optical microscopy; F-actin; Stereocilia; Cochlear hair cell; Loud noise (Avinash, G.B. (67) 139)

Inferior colliculus
Copper; Cochlea; Cochlear nucleus; Glutamine; Amino acids (Farms, W.B. (67) 45)

Inner ear
Cochlea; Ototoxicity; Axon terminal; Gerbil (Takeuchi, S. (67) 13)

Glycoconjugates; Otolithic organs; Otoconia; Silver methenamine; Periodic acid-Schiff staining (Igarashi, Y. (67) 83)

Vestibular system; Scanning electron microscopy; Otoconia; Calcite; Amphibians (Pote, K.G. (67) 189)

Inositol phosphates
Aminoglycosides; Cisplatin; Ethacrynate; Mercuric chloride; Cochlear muscarinic receptors (Bartolami, S. (67) 203)

Interaural time difference
Directional hearing; Magnetoencephalography; Evoked responses; Audition; Auditory space (Sams, M. (67) 89)

Magnetoencephalography; Evoked responses; Auditory cortex; Auditory space (McEvoy, L. (67) 98)

Intracellular Ca^{2+}
Acetylcholine; Hair cell; Potassium conductance (Doi, T. (67) 179)

Isolated type I vestibular hair cells
Reversible motile responses; Membrane depolarization; Guinea-pig (Griguer, C. (67) 110)

Loud noise
3-D optical microscopy; Image processing; F-actin; Stereocilia; Cochlear hair cell (Avinash, G.B. (67) 139)

Magnetoencephalography
Directional hearing; Evoked responses; Audition; Interaural time difference; Auditory space (Sams, M. (67) 89)

Evoked responses; Auditory cortex; Interaural time difference; Auditory space (McEvoy, L. (67) 98)

Marsupial
Cochlea; Place-frequency map; HRP (Müller, M. (67) 198)

Masking
Forward masking; Dorsal cochlear nucleus; Precedence effect; Echo suppression (Kaltenbach, J.A. (67) 35)

Membrane depolarization
Isolated type I vestibular hair cells; Reversible motile responses; Guinea-pig (Griguer, C. (67) 110)

Mercuric chloride
Aminoglycosides; Cisplatin; Ethacrynate; Inositol phosphates; Cochlear muscarinic receptors (Bartolami, S. (67) 203)

Microcirculation
Vestibular; Aging; Blood flow; Stereology; Rat (Lyon, M.J. (67) 157)

Microcysts
Astrocytes; S-100; GFAP; Rip; Gerbil; Cochlear nucleus; Excitotoxicity (Czibulka, A. (67) 1)

Middle ear muscles
Otoacoustic emissions (Burns, E.M. (67) 117)

Monaural localization
Spectral cues; Spatial referents; Binaural localization; Head-related-transfer-functions (Butler, R.A. (67) 220)

Morphometry
Spiral ganglion; Neonate; Human (Chiong, C.M. (67) 211)

Neonate
Spiral ganglion; Morphometry; Human (Chiong, C.M. (67) 211)

Olivocochlear action
Salicylate; Ototoxicity; Cochlear microphonic; CAP; Hearing loss (Fitzgerald, J.J. (67) 147)

Otoacoustic emissions
Middle ear muscles (Burns, E.M. (67) 117)

Otoconia
Glycoconjugates; Otolithic organs; Inner ear; Silver methenamine; Periodic acid-Schiff staining (Igarashi, Y. (67) 83)

Inner ear; Vestibular system; Scanning electron microscopy; Calcite; Amphibians (Pote, K.G. (67) 189)

Otolithic organs
Glycoconjugates; Inner ear; Otoconia; Silver methenamine; Periodic acid-Schiff staining (Igarashi, Y. (67) 83)

Ototoxicity
Inner ear; Cochlea; Axon terminal; Gerbil (Takeuchi, S. (67) 13)

Salicylate; Cochlear microphonic; CAP; Olivocochlear action; Hearing loss (Fitzgerald, J.J. (67) 147)

Periodic acid-Schiff staining
Cochlea; Glycoconjugates; Silver methenamine (Kawamata, S. (67) 75)

Glycoconjugates; Otolithic organs; Inner ear; Otoconia; Silver methenamine (Igarashi, Y. (67) 83)

Phase duration
Auditory prosthesis; Electrical stimulation; Human; Psychophysics; Detection thresholds (Moon, A.K. (67) 166)

Place-frequency map
Cochlea; Marsupial; HRP (Müller, M. (67) 198)

Potassium conductance
Acetylcholine; Hair cell; Intracellular Ca^{2+} (Doi, T. (67) 179)

Precedence effect
Masking; Forward masking; Dorsal cochlear nucleus; Echo suppression (Kaltenbach, J.A. (67) 35)

Psychophysics
Frequency modulation thresholds; Bat; Fluttering target discrimination (Bartsch, E. (67) 128)

Auditory prosthesis; Electrical stimulation; Human; Detection thresholds; Phase duration (Moon, A.K. (67) 166)

Rat
Vestibular; Aging; Blood flow; Microcirculation; Stereology (Lyon, M.J. (67) 157)

Reversible motile responses
Isolated type I vestibular hair cells; Membrane depolarization; Guinea-pig (Griguer, C. (67) 110)

Rip
Microcysts; Astrocytes; S-100; GFAP; Gerbil; Cochlear nucleus; Excitotoxicity (Czibulka, A. (67) 1)

S-100
Microcysts; Astrocytes; GFAP; Rip; Gerbil; Cochlear nucleus; Excitotoxicity (Czibulka, A. (67) 1)

Salicylate
Ototoxicity; Cochlear microphonic; CAP; Olivocochlear action; Hearing loss (Fitzgerald, J.J. (67) 147)

Scanning electron microscopy
Inner ear; Vestibular system; Otoconia; Calcite; Amphibians (Pote, K.G. (67) 189)

Silver methenamine
Cochlea; Glycoconjugates; Periodic acid-Schiff staining (Kawamata, S. (67) 75)

Glycoconjugates; Otolithic organs; Inner ear; Otoconia; Periodic acid-Schiff staining (Igarashi, Y. (67) 83)

Spatial referents
Spectral cues; Monaural localization; Binaural localization; Head-related-transfer-functions (Butler, R.A. (67) 220)

Spectral cues
Spatial referents; Monaural localization; Binaural localization; Head-related-transfer-functions (Butler, R.A. (67) 220)

Spiral ganglion
Morphometry; Neonate; Human (Chiong, C.M. (67) 211)

Stereocilia
3-D optical microscopy; Image processing; F-actin; Cochlear hair cell; Loud noise (Avinash, G.B. (67) 139)

Stereology
Vestibular; Aging; Blood flow; Microcirculation; Rat (Lyon, M.J. (67) 157)

Transduction
Electrophonic; Electrical stimulation; Hair cell; Compound action potential (McAnally, K.I. (67) 55)

Vestibular
Aging; Blood flow; Microcirculation; Stereology; Rat (Lyon, M.J. (67) 157)

Vestibular system
Inner ear; Scanning electron microscopy; Otoconia; Calcite; Amphibians (Pote, K.G. (67) 189)
